

MEMORANDUM

TO: File
FROM: Father McCormack
DATE: April 11, 1994
RE: Reverend Thomas Forry

I presented to the Review Board at its meeting on April 7, 1994 the request of Father Forry's pastor at Holy Family Parish in Rockland that he be allowed to celebrate public Mass.

The Review Board did not concur with the request due to the following observations:

1. Father Forry's present assignment in ministry and the restrictions on it were only recently determined by the board. It is not subject to a review and revision until a year or two has passed by. It would really depend on how well he was doing in his present assignments.
2. The Review Board does not recommend it due to the fact that Father Forry is known to have a 'short fuse' and really is not ready to deal with the stress and demands that come from doing ministry in the parish.

The Board also reviewed his desire to be permitted to be deployed to active duty if and when a Reserve unit is activated which he is serving.

The Review Board is open to this request as long as his immediate supervisors in the Military Ordinariate are aware of the allegations made against him and the restrictions put on his ministry by the Archdiocese.
